

Operation Round Up®

As a cooperative we have a special responsibility to the communities we serve, not only to provide reliable, economic power, but to lend a helping hand where it is needed.

We are proud to re-introduce our community service program called Operation Round Up®. Operation Round Up® gathers voluntary contributions from participating co-op members by “rounding up” their monthly bill to the next dollar- resulting in an average donation of roughly \$6 per year, per account, which is distributed to a worthy local cause.

The most rewarding concept of Operation Round Up® is that it is an extension of the idea of neighbor helping neighbor. Just as those before us joined together 70+ years ago, when private power companies refused to serve rural areas, Operation Round Up® helps co-op members join together with worthy local causes.

Please join with me in making Operation Round Up® a success throughout the Washington-St Tammany service area.
